MAILMASTER 565HS Folder Inserter

The Mailmaster 565HS, in common with all KAS Inserters, combines a unique design with proven technology, backed with over 40 years experience in mailing. It handles from utility style to 6 1/2" x 9 1/2" envelopes, inserting speeds of over 7,200 completed envelopes per hour. The 565HS is standard with a host of features and is available in a number of configurations.

Performance

- Up to 7,200 filled envelopes per hour
- Packing thickness up to 1/2"
- Durable construction, designed for true production environments

Flexibility

- Inserts into utility style to 6 1/2" x 9 1/2" envelopes
- Side insert stations feed a wide variety of material up to 5/16" thick:
 - single sheets, prefolded, corner stapled sets, envelopes, magazines, booklets
- Multiple feeding from each feeder to a preset quantity
- Hand feed station
- Add up to 12 additional side feed stations
- Intelligent sheet feeder easily integrated for OMR, BCR, 2D, and OCR reading
- Can feed folded documents with open edge leading

Ease of Operation

- Clear view of paper path
- Pivoting touch control screen (Color)
- Easy changeover from one job to another
- Top load feeders for continuous operation and ease of loading
- Sequential start-up and shut-down

Accuracy

- Unique inserting system positively guides the collated document into the envelope
- Insert stations have miss, jam and double detection
- Additional sensors positioned throughout to stop the machine in case of error
- Test mode for job set-up and technician adjustment
- Closed loop reporting capability available

The Fast-Sheet-Feeder (FSFI), the most popular module for the 565HS upgrades your system with document accumulation and nest folding capabilities. The FSFI also provides the ability to read OCR, OMR, Barcode, and 2-D Barcodes. This machine coupled with Simply Reporting completes the perfect intelligent feeding system.

The unique KAS pocket type insertion system positively guides the material into the envelope and provides greater protection for personalized documentation.
